| Recognized                     | Affiliation | Given by Team # | Professionalism | Helpfulness | Enthusiasm | Safety  | Together        | Comments  |
| Beth Martino                   | 250         | 3173            |                 | ×           | x          | х       |                 | Extreme Enthusiasm! She is truly excited abou   |
|                                |             |                 |                 |             |            |         |                 | safety and provided us with a battery spill kit   |
| Wolverines (Team)              |             | 1757            |                 | x           |            |         |                 |   |
|                                |             |                 |                 |             |            |         |                 | They helped us glue our robot.  |
| Roger Heiring                  | 2262        | 2593            |                 | Х           |            |         |                 | Lent us a wire we needed to pass inspection.  |
| Richard Eisenberg              | 1884        | 2593            |                 | Х           |            |         |                 | We were given a master link.  |
| John Stewart                   | 88          | 2713            | х               | x           | x          |         | х               | We needed 1/4-20 bolts in order to substitute one type of angle bracket for lighter weight ones in order to get under 120#. John not only supplied bolts, but came over and actively participated in the substitution - all the while encouraging our students! |
| Ernie DiCocco &<br>Dave Bodmer | 11          | 155             |                 | х           |            |         |                 | He helped our team greatly by being a great pit pal.<br>He provided us with all the spare parts we needed.  |
| Bill Ferald                    | 157         | 155             | х               |             |            |         |                 | With his team, Bill showed everyone a lot of respect and also helped us a lot in the pits.  |
| Ethan Heller                   | 1761        | 69              |                 | х           | х          |         |                 | Extremely pleasant attitude doing a tough job (team queuing).   |
| Paige                          | 2877        | 3148            | х               | х           | х          |         | х               | My team really wanted pins. Sadly we did not have money for them. Paige volunteered to not only design but also make my team pins. We were really happy.  |
| Angry Eric<br>(Eckhardt)       | Volunteer   | 155             |                 | х           |            |         |                 | On Thursday, he came over and helped our team fix our fried jaguars.  |
| Michael Hartman                | 1511        | 155             |                 |             | х          | х       |                 | He was an extreme safety captain who demonstrated safety with LOTS of enthusiasm!   |
| Anna Ho                        | 1884        | 155             |                 |             |            |         | х               | She organized and led our alliance while showing everyone respect.  |
| Tom Ryan                       | 1403        | 1403            | х               | Х           | х          |         | х               | Our member and drive-team coach, his spirit and attitude keeps our pit team excited and on task.  |
| Bill McCarthy                  | Bus Driver  | 1403            |                 | х           |            |         |                 | Our bus driver is a large asset for our team, he is always ready to take the team at any time. He is very supportive of Team 1403 and his hard work merits recognition.   |
